BENEFITS OF JoVE EDUCATION

Improved Student Engagement

85% of students prefer JoVE Core to traditional textbooks, used as pre-class material.

Enhanced Understanding

96% of students report better concept comprehension after watching JoVE videos.

Elevated Learning Outcomes

Test scores more than double after students watch JoVE videos.

JoVE short animated videos are key to student learning. They fill a gap in traditional textbooks [...] and are presented in small, easily digestible videos that are clear, precise, and contain the right level explanation for student understanding.

Dr. Stacey-Ann Benjamin, Assistant Professor, University of Florida

PRODUCTS

Core

Video textbooks for undergraduate courses: fundamental concepts and real-life experiments.

Lab Manual

Curriculum-aligned videos for undergraduate lab courses designed to support both instructors and students.

Science Education

Visual demonstrations of key scientific experiments.

JoVE Education is available for new subscriptions through June 30, 2026. Existing Education subscribers will retain access.
